Ambiguis iterum Mavors circumso-  
nat armis,

Ac rapidas totum Furias diffundit  
in orbem,

Jamque novas vires & grandes Sequana fluctus  
Jactitat ac vernos gladiatorum parturit imbres,  
Exitiumque ferox. Jam monstra bicornia Lunæ  
Surgunt, ac sævæ crudelia spicula dextræ  
In nos convertunt; exæstuat hostis ab imis  
Vorticibus, portus & magnas abripit urbes,  
Innumerisque minax facibus concurrat Erinnyes.

At Tu, qui patulo nobis solamina coelo,  
SPIRITUS ALME, refers, ac dulcis mune-  
ra Pacis

Largifluis spargis manibus; Tibi Pontus & Æther  
Et conjurati submitunt colla Tyranni:

Fac nostris redeat stabilis concordia terris,

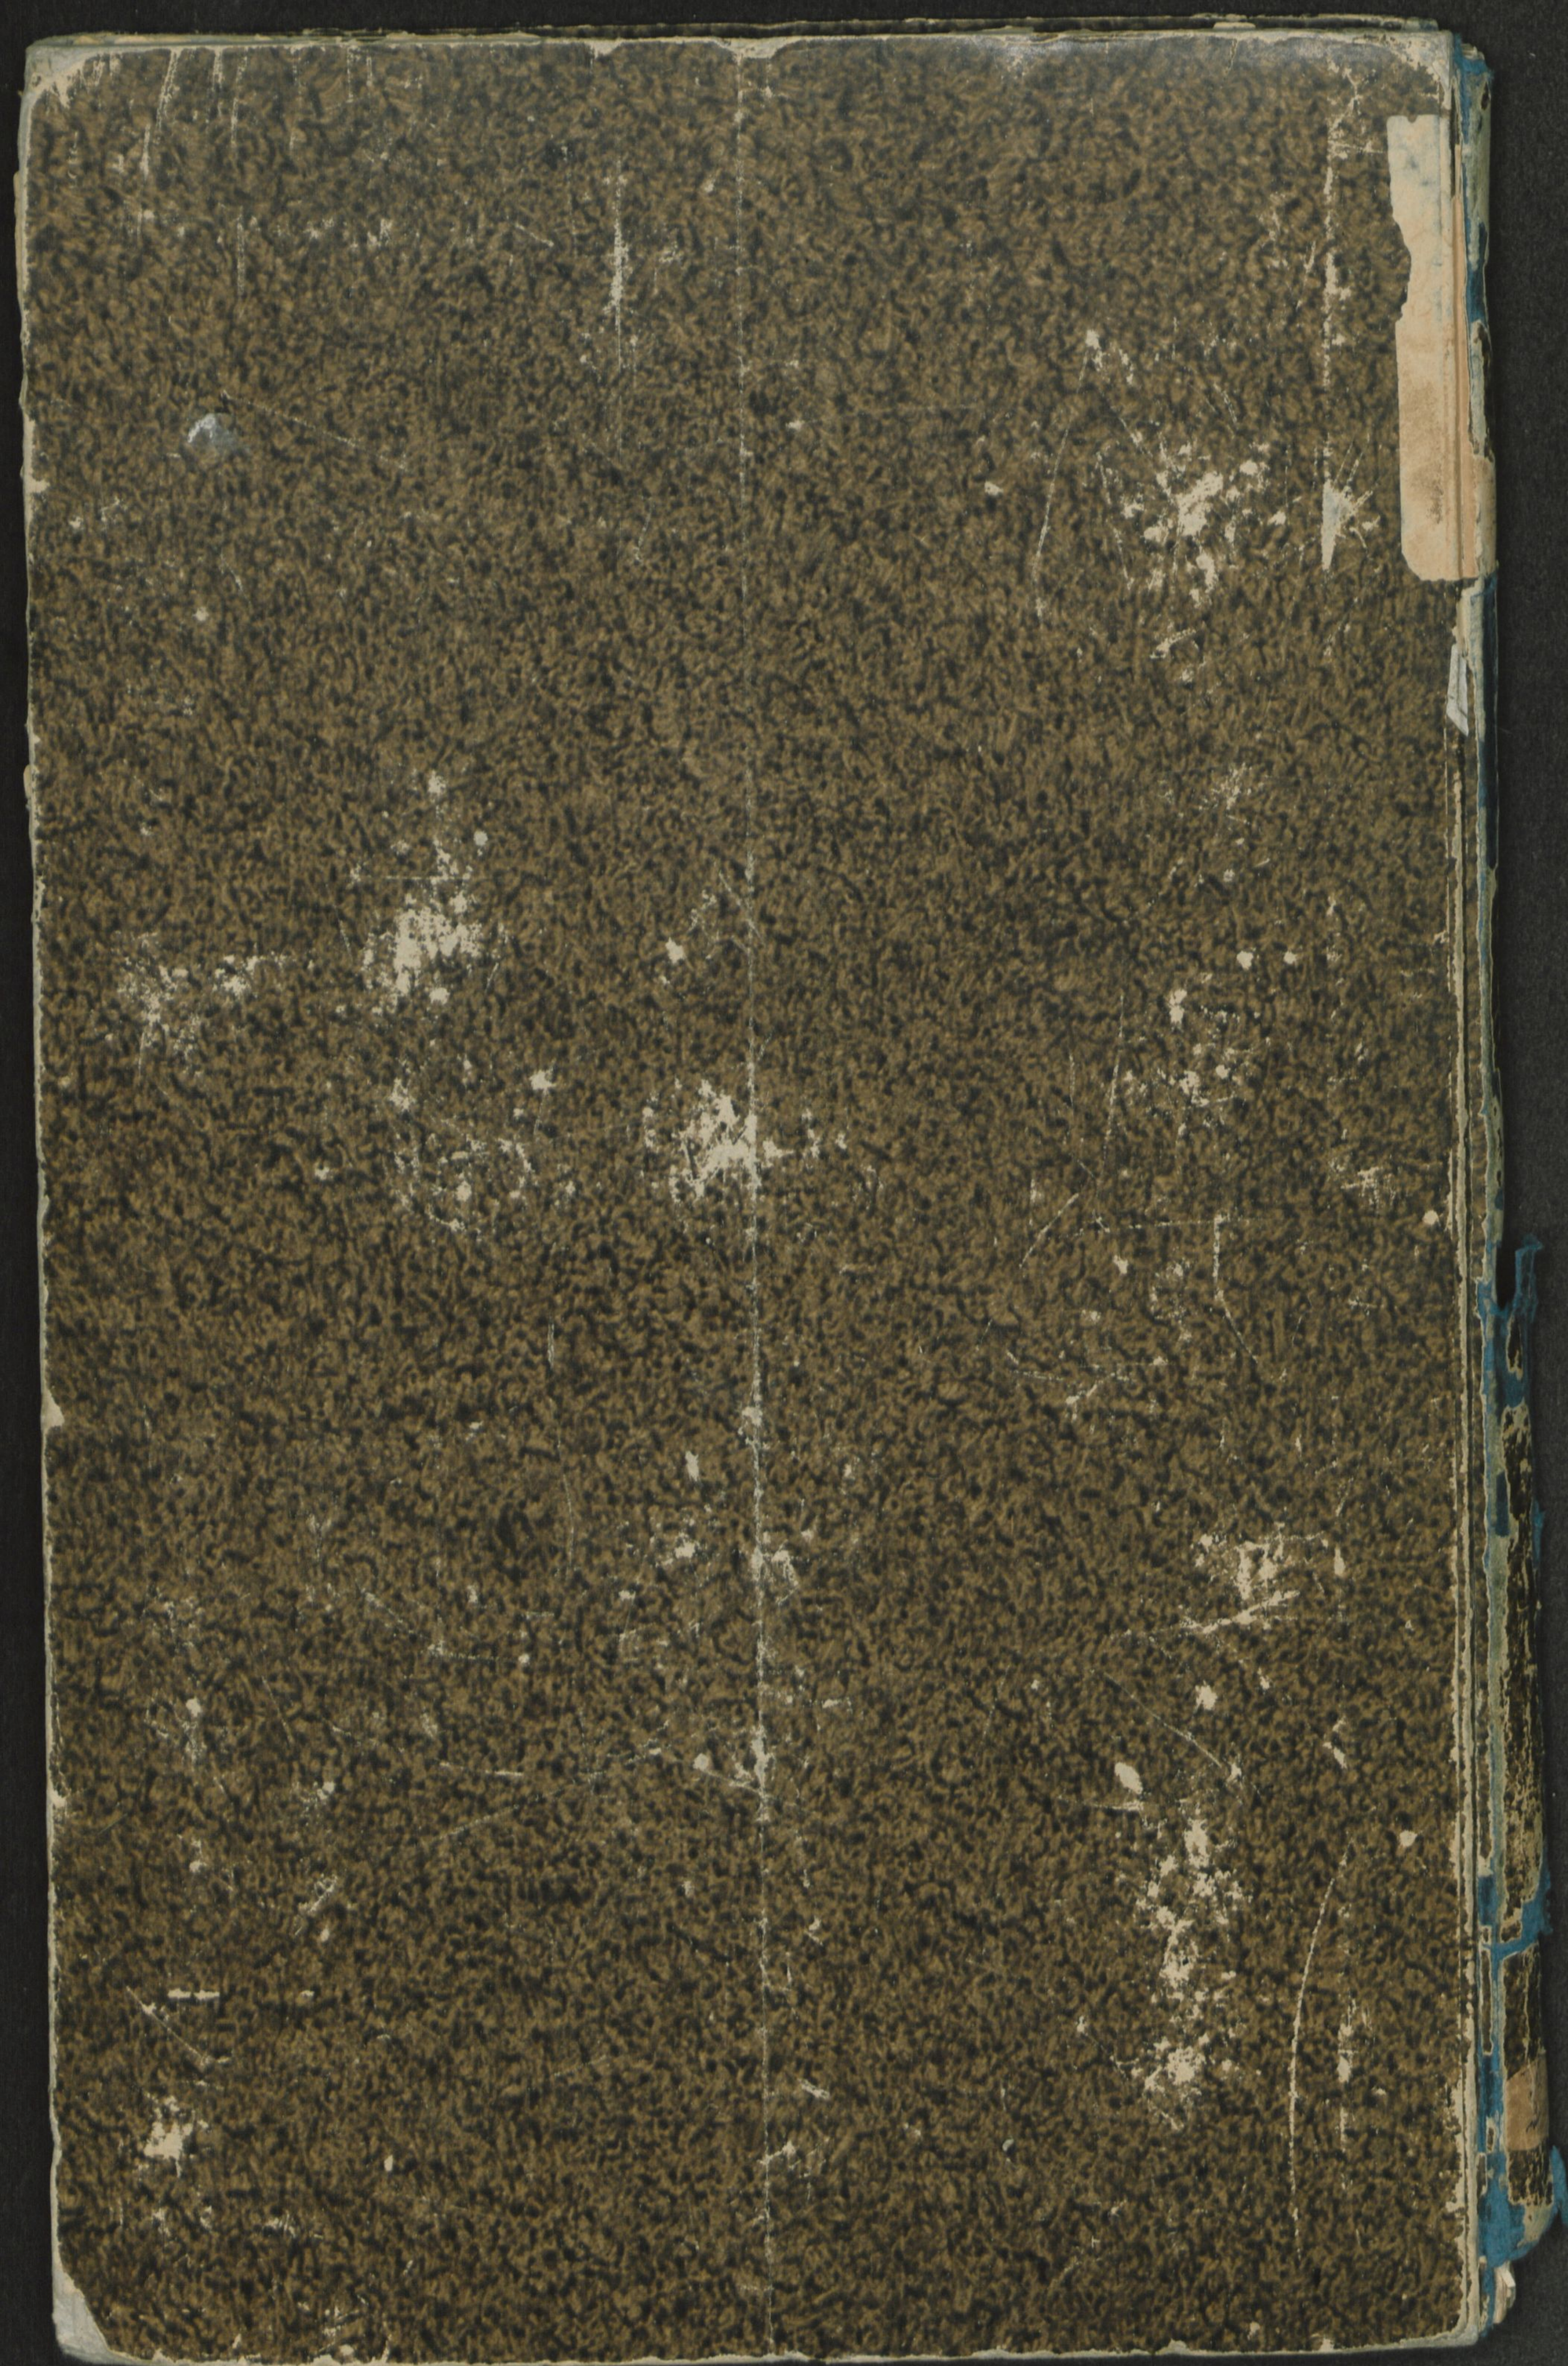

Nudaque compositis florescant litibus arva:

Ceu platano nubunt laurus, ceu pampinus  
ulmo,

Et cedris hederæ serpunt, jucundaque vitis
