Berliner Börse vom 12. August.

(Fernsprechschrift der Saale-Ztg.)

Von der Fondsbörse. Auch heute erhielt die Tendenz der Börse ihr Gepräge von der für einzelne Werte des Banken- und Montanmarktes sich kundgebenden angeregten Kaufkraft. Bevorzugt waren Harpener, die auf große Käufe erster Häuser in kurzer Zeit sich um mehr als 2 Proz. über den gestrigen Schluss hoben. Wie bei den vorherigen Steigerungen dieses Papiers wurde auch diesmal die Aufwärtsbewegung mit dem angeblich beachtlichen Ankauf des Bergwerks seitens des bayerischen Staates erklärt. Konsolidation scheinlich gebessert, dagegen lagen Hüttenaktien bei geringfügigen Umsätzen nicht gleichmäßig. Lauritzen verloren 1 Proz.; Rheinthal gewonnen 2/3 Proz. Trust Dynamik aktien stellten sich wiederum 1/2 Proz. höher. Auf dem Bankmarkt kam die dort herrschende günstige Meinung in durchgängigen Kursbesetzungen zum Ausdruck. Amerikanische Bahnen waren auf höchsten New-York gefragt; Kanada ziemlich 2 Proz. höher. Italienische Mittelmeebahn kräftig gehoben, auch Warschauer-Wien zeichneten sich durch recht feste Haltung aus. Schiffahrtaktien und Renten war nur geringes Interesse bei schwach behauptetem Kursstande vorhanden. Der Verkehr gestaltete sich später wieder sehr ruhig ohne wesentliche Kursänderungen. Banken erzielten weitere Besserungen.

In der zweiten Eisenstunde kamen Schaffhauser Bankverein und Dresdener Bank infolge von Realisierungen etwas nach; Kreditaktien schwächten sich auf Wien ab, während im übrigen der Kursstand bei großer Geschäftsillem im wesentlichen unverändert blieb.
